

Parent Information For Neuric Learning

Charting New Paths To Success

Neuric and Homeschool Academy have teamed up to create a certified environment to deliver the most advanced technology learning tools to help children learn and be more productive. Neuric Learning draws from years of development blending linguistic research and adaptive programming to create learning tools as attention holding games. Each game focuses on a challenging aspect of English providing the right tools to practice.

Working with Neuric, Homeschool Academy is pioneering new methods of success in reaching children to inspire them to learn in a way that teaches them to excel.

Master 125 English prepositions while improving English grammar, vocabulary, and reading rate.

Preposition Master

This exciting educational program utilizes a kinesthetic approach to learning English. Preposition Master's package of games, flashcards, and quizzes, makes learning fun and equips students with essential instruction, practices, and feedback to master the unique characteristics of the English language. All games come prepared with the ability to help students evaluate their proficiency and pinpoint problem areas.

About Neuric Learning

Neuric Learning is a unique online educational products company operating as a subsidiary of Neuric LLC creating learning games that reaffirm the premise that learning is fun. The company is an inseparable blend of linguists, educators and programmers that have invented tools to help people learn and increase their competence of the English language.

The Neuric Learning program is committed to developing language tools that are fun to use and help children master difficult areas of American English. Each game focuses on a challenging aspect of English providing practice that guides the learner to understanding and proficient use of English.

A Great Way To Learn

Neuric Learning's premier game is called *Prepositions Master*, which targets one of the toughest areas of English to learn - prepositions.

In addition to academic tools, Neuric Learning has also created testing resources for standardized English tests (like the TOEFL), grammar and vocabulary
